IntegraTeach™ Custom Compliance e-Learning

The Red Flag Group's IntegraTeach™ | Custom Compliance e-Learning is different from other compliance learning products. It is fully custom-built, allowing for courses to be quickly created and rapidly deployed. There is no need to purchase "off the shelf" courses nor pay any licence fees. You own the intellectual property in the material that we develop for you. Write it once and run it everywhere.

It can help you to:

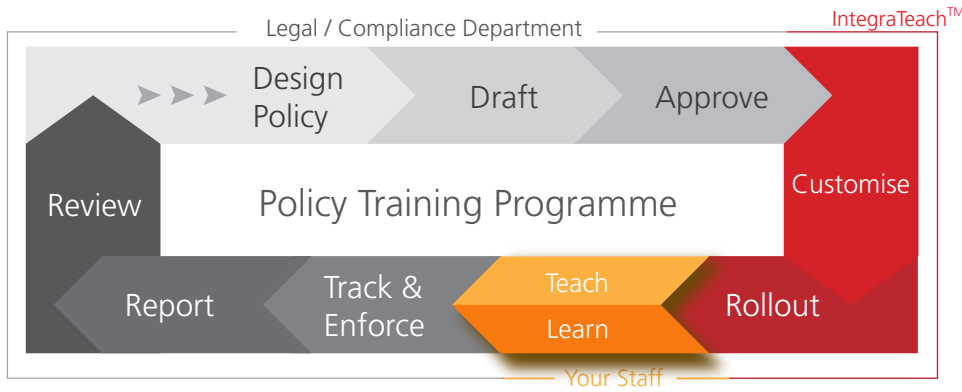

- ✔ Develop courseware quickly
- ✔ Deploy fast with minimal setup

It consists of short scenario-based training that:

- ✔ is focused on policies and procedures
- ✔ is not legal or theoretical
- ✔ uses minimal bandwidth
- ✔ is quick to deploy

How it works

When you start to apply training policies, IntegraTeach™ | Custom Compliance e-Learning will allow you to quickly create learning programmes based on your company's actual policies, not theoretical laws and regulations.

What makes us different?

✓ Practical training

IntegraTeach™ | Custom Compliance e-Learning courses focus not on specific laws and regulations, but the underlying everyday commercial conduct and your policies

✓ Tailored courses

We do not believe in creating generalised compliance training. All our courses are customised to your organisation's needs

✓ Straight to the point

We offer short, practical and scenario-based training that trains staff on your specific policies which apply to their roles, their associated risks and their learning level
